BIOGRAPHY

Ameya qualified as a physiotherapist in 2002 and completed his Master's degree from Keele University in 2004. He worked in the private sector with adults sustaining traumatic and acquired brain injuries with learning disabilities, mental health and orthopaedic injuries before specialising in persistent pain management. He has over 15 years of experience in treatment of neurological, spinal orthopaedic and musculoskeletal conditions within inpatient and community settings gaining experience with clients at various stages of recovery. These include acute hospital admissions, outpatient and community rehabilitation, medium and low secure settings.

Ameya is skilled at assessing needs of the clients in the specialist areas of long term musculoskeletal conditions, complex pain presentation and neurodegenerative conditions in hospital and community settings to ensure that best possible outcomes are achieved for his clients. Working within statutory services, the community and in private provision, Ameya is experienced in working with multi-agency professionals and is able to signpost for additional support services and interventions based on a client's rehabilitation goals, mental and physical needs. Ameya's community experience also includes working with those diagnosed with having a Stroke, those living with Parkinson's Disease, multiple sclerosis, dementia and managing post-fracture rehabilitation within the community.

Ameya ensures that his practice is evidence based and offers a highly professional, proactive and client centred approach to his work. He is skilled at liaising with multi-professional teams, parents, family members and carers. He has experience in providing support and training for parents and family members, carers as well as educational and work place staff.

CASE MANAGER

BROWNBILL
CASE MANAGEMENT SERVICES

BIOGRAPHY continued

Ameya has treated patients with persistent pain including Complex Regional Pain Syndrome, phantom limb pain, fibromyalgia and chronic pain syndrome often resulting from catastrophic injury. Ameya works as a case manager using his expertise to assist clients with neurological conditions such as Acquired Brain Injury, Spinal Cord injury, Cerebral Palsy and neurodegenerative conditions. He creatively advocates for the clients and has direct experience of recruiting care and support and clinical staff. He has worked as a CQC registered manager and Head of Quality and Governance for a national MSK service provider in his previous role.

He has recently obtained his independent prescription qualification and can support patients by conducting medication reviews and writing recommendations to the GP services. Ameya is trained in Level 4 Safeguarding and has been a designated safeguarding officer for the business in his previous role.
