CAROLINE SAYS:

“WCM provides a holistic approach and a personal touch to our client care. This kind of approach can make a significant difference in providing comprehensive support and addressing individual needs. When Case Managers are supported by the wider team, it fosters an environment of collaboration and ensures the quality of service provided to clients.”

BIOGRAPHY

Caroline is an HCPC Registered Occupational Therapist and experienced case manager with a deep understanding of a wide range of paediatric conditions, including cerebral palsy, autism, brain injury, and complex genetic conditions. Her knowledge and expertise allow her to make informed recommendations, always keeping the goals and needs of the clients at the forefront.

With her extensive background, Caroline possesses a wealth of knowledge and experience in physical, neurological, learning, and social impairments. She has a comprehensive understanding of the various factors that impact disabled children and their families. This knowledge enables her to provide comprehensive assessments and support for children and their families.

In addition, Caroline has worked as an experienced expert witness, so has an effective working knowledge of the litigation process. Caroline is able to use this experience to develop positive and effective working relationships with deputies and litigators, as well as supporting her case managed clients and families through the litigation process.

Caroline specialises in assessing equipment, adaptations, and sensory processing dysfunction. She recognises the importance of addressing sensory needs and provides interventions to improve sensory processing in children with challenging behaviours. Her goal is to create a supportive and therapeutic environment within the home setting.

Caroline also runs a private paediatric occupational therapy practice. Through her practice, she conducts holistic assessments for children with diverse needs. She takes a client-centred approach, considering the unique requirements and goals of each child to provide effective interventions and support.

Caroline's organisational skills, motivation, and resourcefulness contribute to her problem-solving abilities. She approaches challenges with determination and finds creative solutions to meet the needs of the children and families she works with. Moreover, Caroline excels in building and maintaining strong working relationships with children, families, carers, professionals, and services. This collaborative approach ensures a comprehensive and coordinated support network for her clients.

Caroline qualified as an occupational therapist in 2005 and through her interest in paediatrics, sought to increase her experience by completing a six-month voluntary placement in India, providing services to children with complex physical and social needs.
