DAFYDD SAYS:

"I have the ability to work effectively with people of different ages, cultures, life experiences, educational backgrounds, communication skills, and environments. Working with people of different ages requires understanding and adjusting to their unique needs and preferences. People's life experiences greatly influence their perspectives and responses. Having the versatility and capacity to connect with a diverse range of people is vital to good case management."

BIOGRAPHY

Dafydd is an is a Social Care Wales Registered Social Worker and experienced case manager who specialises in working with adults who have complex physical disabilities, such as brain injury, spinal injury, amputations, life-limiting conditions, and those requiring palliative care. He also has experience working with individuals with learning disabilities and adults and older persons with mental health issues or mental illnesses.

One of Dafydd's key roles is to ensure that individuals and their families are actively involved in the care and treatment planning process. He facilitates positive and effective communication, ensuring that service users have the information they need to make informed decisions about their care. Dafydd adopts a strengths-based approach, empowering individuals and enhancing their sense of control over their own lives to promote independence.

Building strong relationships is central to Dafydd's practice. He establishes supportive working relationships with service users, their families, and colleagues. These relationships have proven effective in coordinating comprehensive packages of care that lead to positive outcomes for service users.

Dafydd has been qualified since 1995 and has worked across a wide range of clinical fields of practice. He has extensive experience working with adults with complex disabilities and various challenging circumstances. He has also worked with individuals who have neurological disorders and life-limiting conditions. In his role, Dafydd manages a diverse team of health and social care professionals, overseeing complex assessments, care planning, and service coordination.
