

EMILY STEVENS

CASE MANAGER - OT

Snapshot

A dedicated ABI and Spinal occupational therapist. Utilises excellent communication and interpersonal skills to deliver person-centred treatment.

Experience

In 2008 Emily began her career as a domiciliary carer and then went to work in an Acquired Brain Injury unit as a Support Worker and a Moving and Handling Skills Instructor. Emily then qualified as an Occupational Therapist in 2017.

Since qualifying Emily has worked within adults forensic and mental health service where she would work with the individual and their family to implement interventions and meaningful goals. She then worked in social services and with children aged 11-18 years old with mental health.

Emily joined Northern Case Management in 2021 and her case load includes pre and post litigation clients with fluctuating needs. Emily supports clients with acquired neurological damage (acquired brain injury, spinal injury and complex needs) and empowers them to develop their full potential and fulfil their lifestyle by providing a holistic client centred service.

Emily's role as a case manager involves assessing, facilitating, planning and advocating her client's needs, managing support worker teams and setting rehabilitation goals with the client and support workers in the client's home environment.

As an Occupational Therapist, Emily has experience in planning and implementing treating programs that are tailored for the client. She has also recommended adaptations and specialist equipment and works collaboratively with clients to set meaningful and purposeful goals for interventions.
