BIOGRAPHY

Laura Seager is a Registered Learning Disability Nurse (RNLD) having qualified at the City of Birmingham University. Between 2006 and 2009 Laura gained significant experience as a nurse working with children and adults and their families in various settings, including in-patient, community and secure mental health facilities.

Laura joined Brownbill Associates Ltd in September 2010, following a previous case management role where she gained initial experience as a paediatric case manager, with individuals pursuing personal injury and clinical negligence claims. Since joining Brownbill Associates Laura has applied and developed her case management skills with both paediatric and adult clients who have various complex conditions including acquired brain injury, cerebral palsy, spinal cord injury and associated psychiatric conditions. She was promoted to senior case manager in November 2013.

Laura is a strong advocate for her clients and is proficient at assessing their needs and working in collaboration with her clients to help them achieve their day to day life goals. She is passionate about empowering her clients to have choice and control over their lives and helping them to maximise their independence.

When clients require care and support, Laura has extensive experience and knowledge of recruiting, employing and managing directly employed teams of support workers. As such, she has achieved many successful outcomes where clients and families have been better supported and the client's life experience has been enhanced. Regarding rehabilitation, Laura is adept at sourcing specialist therapists and coordinating therapy provision to advance her clients' recovery and capitalise on their potential.

In her role as case manager, Laura is proficient at multi-disciplinary working, including private and statutory professionals and agencies, and is experienced at liaising with educational establishments and specialist units to ensure the needs of her clients are met effectively and efficiently. Laura is an experienced and effective healthcare professional who is committed to client centred interventions. Laura regularly attends clinical and case management training and conferences in order to support and develop her skills and practice.
