Experience

Elizabeth began her career in health and social care as a care assistant and went on to study Psychology at the University of York. During this time she worked within a local psychiatric hospital and supported her studies through working as a rehabilitation assistant for people with brain injuries. Elizabeth completed a Masters in Clinical Communication Studies at the University of Sheffield to become a Registered Speech and Language Therapist.

Her first position was within the Early Years Service in Sheffield, developing and delivering communication workshops to support parents of pre-school children. Elizabeth then worked for 10 years within NHS adult acute and community services in Derbyshire. Elizabeth held a Highly Specialist team leader position at the Head Injuries Rehabilitation Centre in Sheffield. She then held a Senior Speech and Language Therapy position at a rehabilitation hospital for people with complex trauma. During the Covid-19 pandemic Elizabeth worked within an acute hospital setting.

Elizabeth enjoys being a member of special interest groups, developing service delivery and sharing best practice. She has a particular passion for supporting people with complex communication needs and working with technology. Within her clinical training, Liz gained an additional postgraduate qualification to assess and manage dysphagia (swallowing difficulties).

Elizabeth has highly developed skills in caseload management and prioritisation of needs. Elizabeth held key worker positions, leading on rehabilitation programmes and supporting with discharge planning. She has developed and delivered training programmes and is an experienced supervisor.

After joining JSP as Case Manager in 2021, Elizabeth has gained experience in both Pre and Post Settlement cases. She is thorough and diligent, maintaining clear communications with clients and legal teams. Elizabeth enjoys making a positive difference for people and is an excellent problem solver. She is committed to ensuring a quality service and is compassionate towards her clients and their teams.
