

MICHAEL CONHEENEY

SENIOR CASE MANAGER

Snapshot

A dedicated nurse and trainer who is passionate and proactive about delivering client focused care.

EXPERIENCE

Previous Experience

Michael is a Registered General Nurse by Profession who qualified from Salford University in 2012. After qualifying he started his career at Salford Royal NHS Foundation Trust and worked on the Neurological Rehabilitation Ward. Michael has experience of working with individuals with traumatic brain injuries, where he has knowledge of the complex and challenging behavioural and personality changes of a brain injured person. Michael has been directly involved in the often-difficult transitional period as families adapt to the altered family dynamics and has actively participated in the recruitment of support workers. Michael has a specialist interest in neurological conditions and spinal rehabilitation. He will endeavour to attend conferences or undertake specialist training to continue to build upon his knowledge and skills within these areas.

Current Employment

Since joining Northern Case Management in 2016, he has gained invaluable experience of dealing with both litigation and post-settlement clients. Michael has experience of working with clients with acquired brain and/or spinal injuries including those clients who may also have complex health care needs and require comprehensive Case Management and reablement services.

Michael has progressed within NCM to Senior Case Manager and his roles and responsibilities involve; providing supervisory support to case managers with their packages and ongoing CPD development. In addition, Michael also holds a clinical caseload and provides active case management which includes the assessment of health and rehabilitation needs, reviewing and monitoring of clients goals, liaising with families and professionals and care team management.

MICHAEL CONHEENEY

SENIOR CASE MANAGER

EXPERIENCE (CONTINUED)

His role also involves liaising with therapists, rehabilitation units, statutory and educational services, and coordinating multi professional team meetings. Michael works closely with Finance Deputies by providing care costs and designing budgeting programmes in the promotion of financial planning for my clients.

Michael has been responsible for delivering numerous clinical educational packages in his role as a trainer to both internal and external health care and/or other professionals. This has included clinical skills such as: medication training, adult and paediatric Basic Life Support, First Aid and Tracheostomy Care and Management.

Medico Legal Experience

Since joining Northern Case management in 2016, Michael has gained experience of working within the medico-legal arena, both on joint or single instruction personal injury claims and liaising with instruction parties effectively.
