MICHELLE SAYS:

“My role as a case manager provides me with varied and challenging work: each client's needs and progress are unique, which can make the work dynamic and intellectually stimulating. I have to adapt my approach and strategies to suit each client's specific situation.”

BIOGRAPHY

Michelle is an HCPC Registered Physiotherapist whose approach to working with her clients and their families is characterised by a holistic perspective. She understands that a client's clinical presentation doesn't exist in isolation but has a profound impact on various aspects of their lives. This recognition highlights her commitment to addressing not only the immediate clinical needs of her clients but also their broader well-being and quality of life.

Her experience extends to collaborating with both statutory and private services, showcasing her versatility and dedication to finding the best solutions for her clients. This ability to navigate different systems and resources is valuable in ensuring comprehensive care.

Michelle's specialisation lies in working with adults and children who have neurological, complex disability, and orthopaedic conditions. This specialisation signifies her expertise in dealing with a diverse range of cases and her capability to tailor her approach to meet the unique needs of each individual.

In her role as a case manager, Michelle's attributes stand out. She is known for being empathetic, and flexible, emphasising her client-centred approach. Placing the client's needs at the forefront, she acknowledges the significance of considering the individual within their own environment. This client-centric approach fosters strong and positive therapeutic relationships with both clients and their families.

Furthermore, Michelle possesses the important skill of adapting her communication style to suit the needs of different people. This adaptability ensures effective communication and understanding with clients from diverse backgrounds and with varying communication abilities.

Michelle's problem-solving abilities are another asset. She is organised, motivated, and resourceful in her approach, which enables her to address complex challenges and find effective solutions.

Michelle is actively involved in providing specialist evidence-based paediatric physiotherapy. She is adept at identifying functional challenges in children, prioritising interventions, and offering strategies to support skill development or necessary adaptations for successful engagement in activities. Her passion for helping clients and their families achieve their best potential future shines through in her dedication to her work.

Overall, Michelle's approach is characterised by empathy, adaptability, expertise, and a commitment to the well-being of her clients and their families, making her an asset in the field of paediatric case management.
