SNAPSHOT

As a chartered physiotherapist, Debjani aims to provide clients with a high standard of evidence-based care. She has extensive case management experience in the field of paediatrics, brain injury, catastrophic injuries and complex orthopaedic injuries. Debjani also specialises in Neuro-musculoskeletal rehabilitation and has special interests in paediatrics and brain injury rehabilitation.

EXPERIENCE

Debjani provides comprehensive assessments and proactive case management for children and adults with acquired brain injury, complex orthopaedic, neurological and psychological injuries.

As a part of her job, she works closely with clients and their families, their solicitors, and a variety of health and social care professionals in order to achieve rehabilitation goals set out by clients.

Debjani has worked with Major Injury Services dealing with clients who have suffered major trauma and catastrophic injuries such as traumatic brain injuries, spinal injuries and amputations.

As part of being a Case Manager, Debjani monitors progress and changes in the client's situation and reviews the case management plan accordingly - ensuring she establishes a good working relationship with the client and their family.

Debjani has experience in the process of recruitment and management of support workers - setting up care packages for clients with complex injuries.

I enjoy reading and travelling, as they allow me to learn about different perspectives and cultures.

I also enjoy socialising with friends and building positive relationships with people.
